

# 給他們一點色彩

## Bring them some colours!

定期檢驗從水塘、水井、街喉、奶品公司等處抽取的樣本，確保食水可以安全飲用，泳灘的水質適合游泳，和牛奶及奶類製品不含大腸桿菌等病原體，以預防食物中毒。

Regular testing of samples collected from reservoirs, wells, public taps, dairy products and other sources to ensure that potable water is safe for drinking, beaches are suitable for swimming in, milk and dairy products are free from *E. coli* and other pathogens so as to prevent food-poisoning.
